BNC SHARK (BNSH)

Official Whitepaper

1. Introduction

BNC SHARK is a next-generation meme utility token built on the BNB Chain. The project aims to combine meme culture with real blockchain utilities, focusing on transparency, community growth, and long-term sustainability.

2. Vision & Mission

The vision of BNC SHARK is to build a strong and trusted meme ecosystem that evolves over time. Our mission is to provide holders with rewards, utilities, and a community-driven environment where innovation and fairness are prioritized.

3. Meme Concept

The Shark represents strength, survival, and dominance in the crypto ocean. BNC SHARK is designed for strong holders who believe in long-term growth rather than short-term hype.

4. Tokenomics

Token Name: BNC SHARK
Symbol: BNSH
Blockchain: BNB Chain
Total Supply: 1,000,000,000 BNSH
Initial Burn: 30% of total supply
Liquidity: 70% added and locked
Rewards & Team Allocation: 10%

5. Tax System

Buy Tax: 9%
Sell Tax: 9%

Tax Allocation:
    4% Marketing & Growth
    3% Ecosystem Development
    2% Rewards & Buyback

6. Buyback & Burn Mechanism

A portion of the collected tax will be used to buy back BNC SHARK tokens from the market and permanently burn them. This mechanism helps reduce supply and support long-term value.

7. Future Tax Removal

Once the ecosystem is fully developed, the buy and sell tax will be removed, making BNC SHARK a utility-focused and transaction-friendly token.

8. Ecosystem & Utilities

SharkSwap DEX: A decentralized exchange offering benefits to BNC SHARK holders.
SharkNFTs: Limited NFTs with staking and ecosystem advantages.
AI Tools: Advanced AI-based tools for analytics, dashboards, and market insights.

9. Community Rewards

BNC SHARK rewards its community through airdrops, holder incentives, and activity-based rewards across social platforms.

10. Security & Transparency

The smart contract is verified on BscScan. Liquidity is locked, and there are no hidden mint functions. All tax wallets are transparent to ensure community trust.
